All participants of EAWF 2021 and Forum events must undergo PCR testing for the novel coronavirus infection (COVID-19) to activate their badge.

In order to access the Forum venue from 08:00 on 13 October, participants must take a test at one of the dedicated EAWF testing centres **no earlier than 08:00 on 10 October and no later than 24 hours before arriving at the Forum venue.**

[View the list of EAWF testing centres](#)

The result will automatically be sent to the Accreditation Centre. There is no need to submit the result of the PCR test. It is possible to receive an accreditation badge first and then take the test, or vice versa. The badge is activated after a negative result has been received, and will work until the end of the Forum. You do not need to register for PCR testing.

AN ACCREDITATION BADGE **IS INVALID** WITHOUT A NEGATIVE PCR TEST RESULT

Before going to the Forum venue, please make sure
that your test result is negative

WHERE TO FIND YOUR ID

At the EAWF 2021 PCR testing centre, you will be **required** to show your ID (passport) and show your badge (if you have already received one), or give your member ID. The ID can be found in your [personal web office](#) (on the home page to the right from the photo).

FORUM PROGRAMME

Business programme

Detailed information about the business programme is available in the ['Programme'](#) section of the official Forum website.

The seating of participants in the halls for the business programme will follow social distancing, in compliance with the approved sanitary and epidemiological requirements. If seating is full, access to the hall will be restricted.

We kindly ask you to be receptive to these prevention measures. The health and safety of the Forum participants, guests, and staff are top priority for the organizers of EAWF 2021.

To attend the sessions you are interested in, please confirm participation in the 'Business programme' section of your [personal web office](#). Please note the sessions that are recommended for attendance. They are placed at the beginning of the list of events.

The discussions, thematic sessions, strategic sessions, and analytical sessions have been grouped into five main categories.

The Women's Mission to Shape a New Agenda for Peace and Trust will focus on female participation in the diplomatic sphere, as well as in efforts to forge the Greater Eurasian Partnership.

The Women's Mission to Come Together for a Healthy Society will seek answers concerning the role played by women in securing a healthy future, and opportunities available to them. It will also look at new effective technologies, as well as mechanisms and approaches to promote healthy lifestyles.

Environmental and climate-related issues will come under the spotlight at events held as part of the platform **The Women's Mission to Protect the Planet: The Philosophy of Conscious Consumption and an Environmentally Friendly Future**.

Platforms – **The Women's Mission to Achieve Social Transformation** and **The Women's Mission to Achieve Digitalization and Economic Development** – will focus on changes taking place in society, increasing female participation in fast-growing sectors of the economy, the development of the creative economy, and increasing financial and digital literacy.

A number of sessions will take place under the theme **Women in Agribusiness**. These will attempt to identify which agricultural projects are in greatest demand in the international investment market, and ascertain the future of agricultural professions.

As in previous editions of the Forum, expert sessions featuring international organizations and associations will form a key part of the programme. These will include a session of the Women20, a session of the United Nations Industrial Development Organization (UNIDO), a World Bank session, and a presentation of the BRICS Women's Business Alliance.

Among the events taking place for the first time at the Eurasian Women's Forum will be a meeting of the international club of winners and participants of APEC's international competition for women's projects (APEC BEST AWARD), and a meeting of the OECD Nuclear Energy Agency international working group on improving the gender balance in the nuclear sector.

The metro is the most popular and fastest mode of public transport.
